Service Model of Geriatric Rehabilitation

Status Quo

Patients are primarily treated in
one-on-one sessions

Prolonged post-acute
rehabilitation is often missing

Lack of training intensity is
threatening full recovery

CoCare

Innovative, comprehensive ecosystem for geriatric rehabilitation

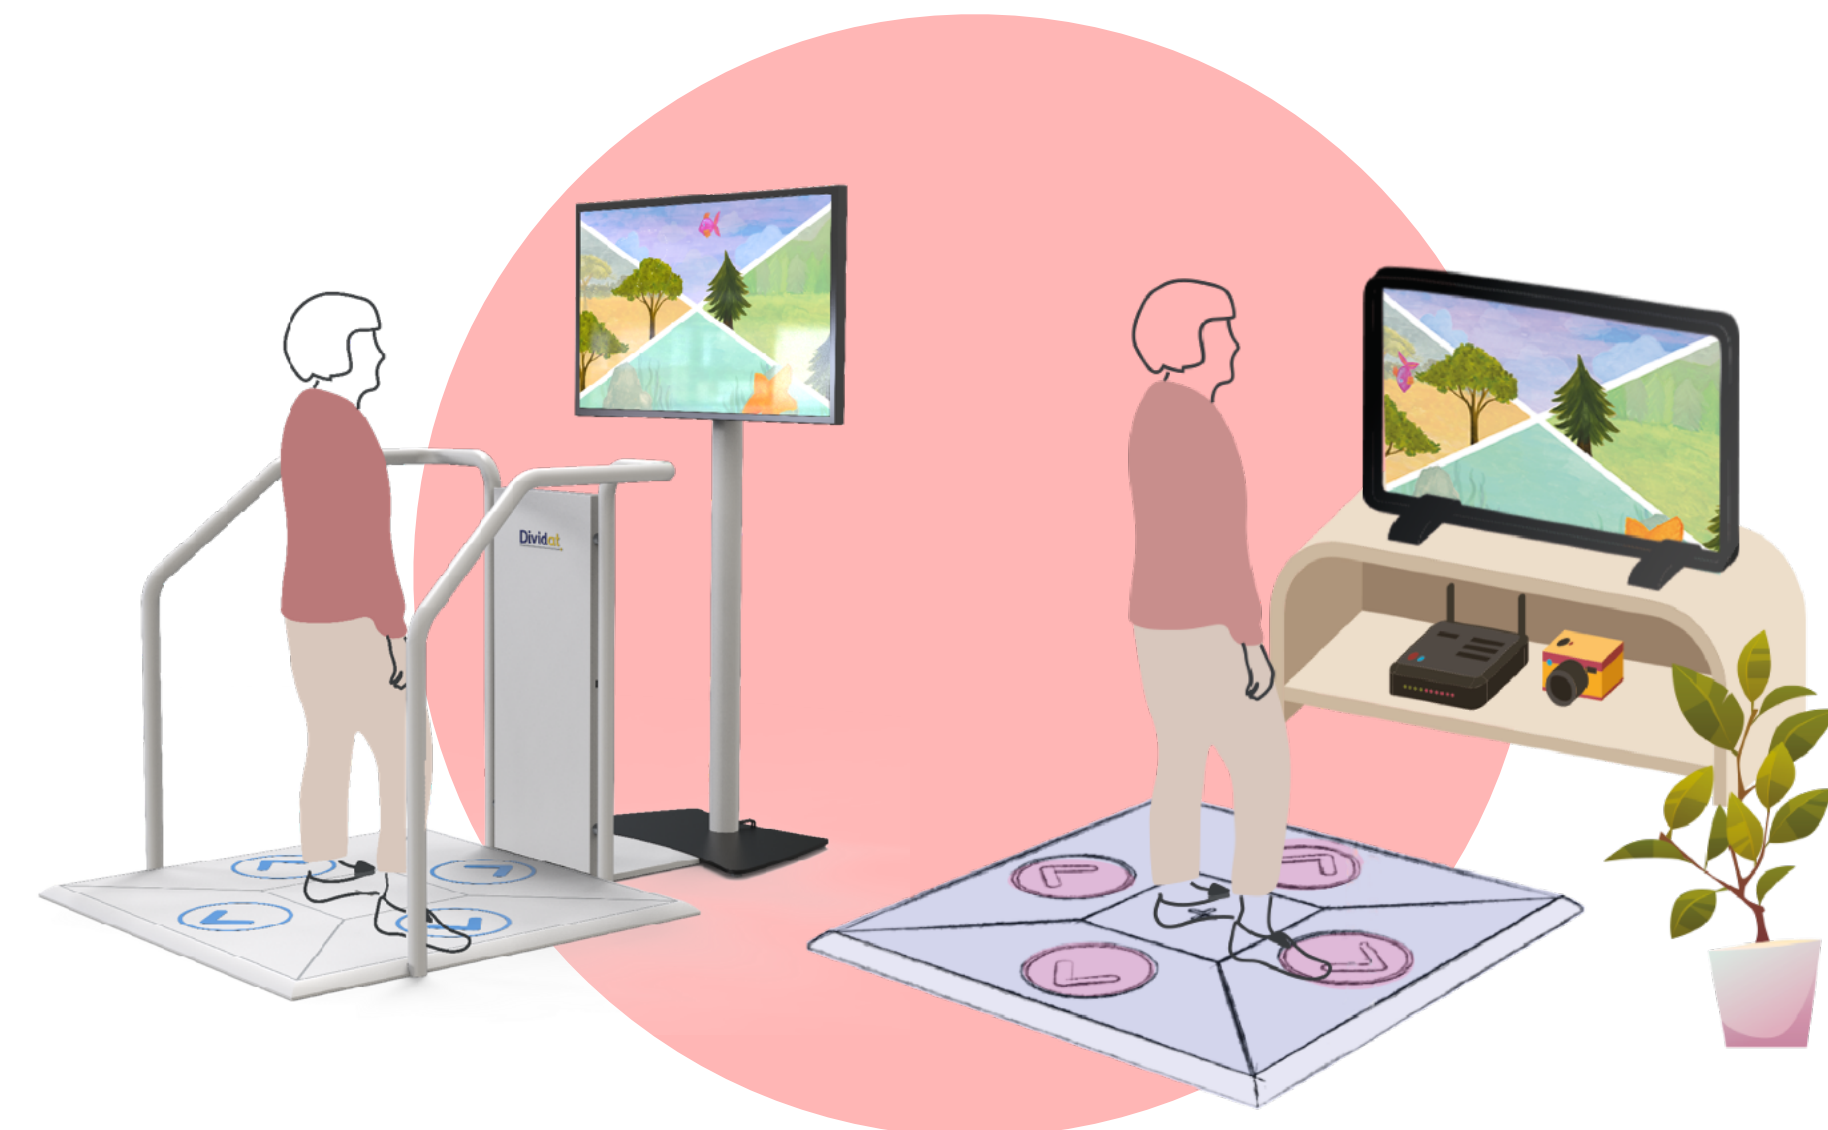

An assessment system
providing standardized tests

A digital web-based
rehabilitation cockpit

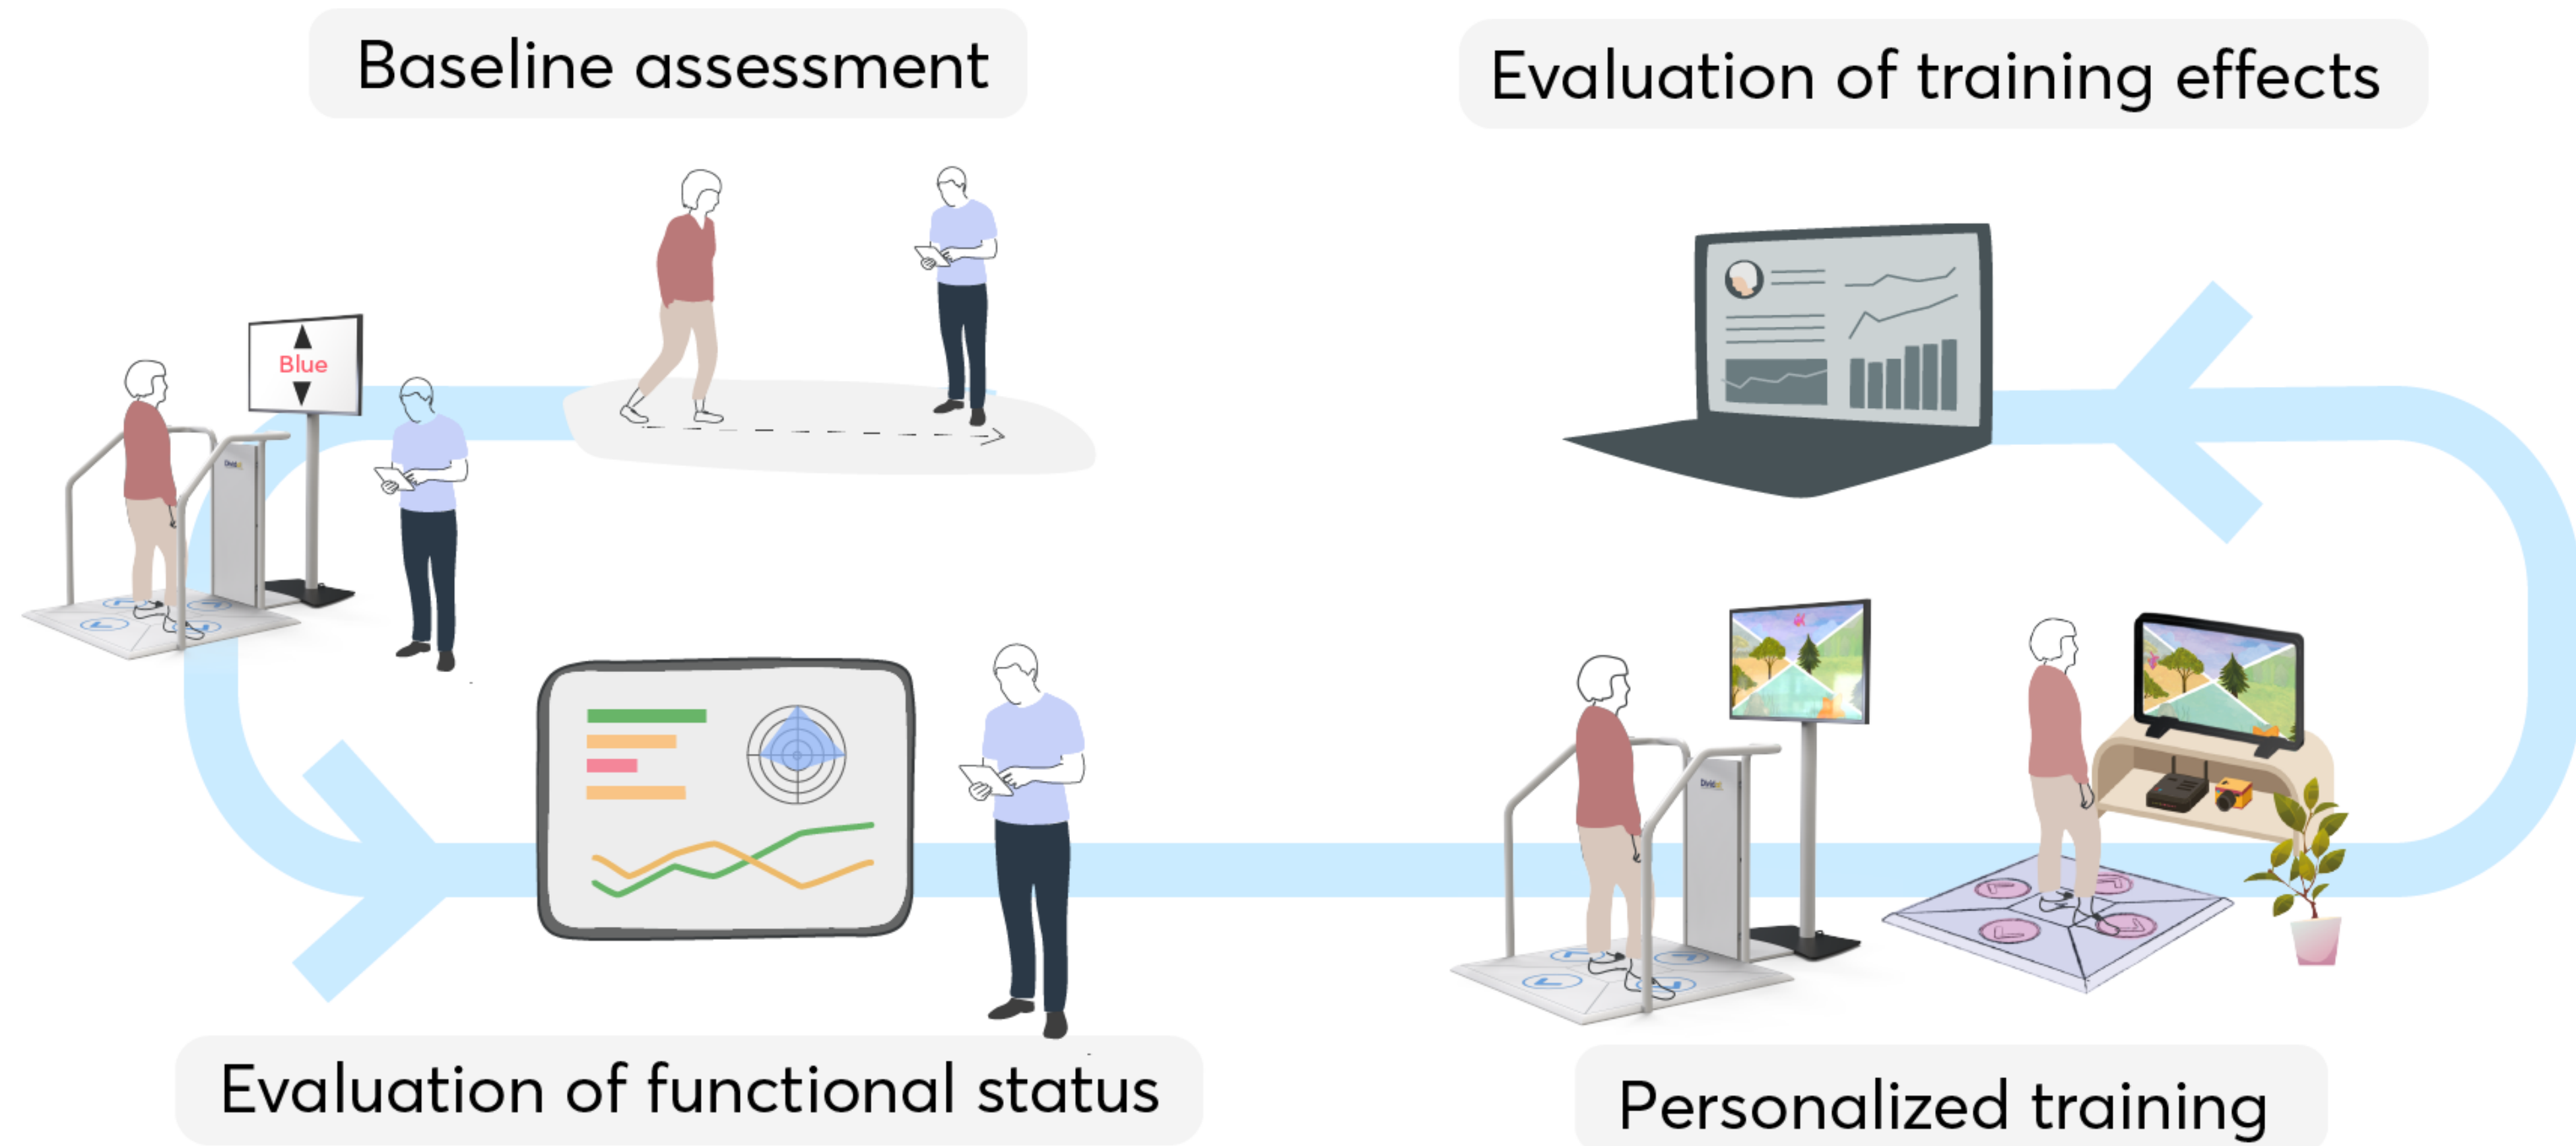

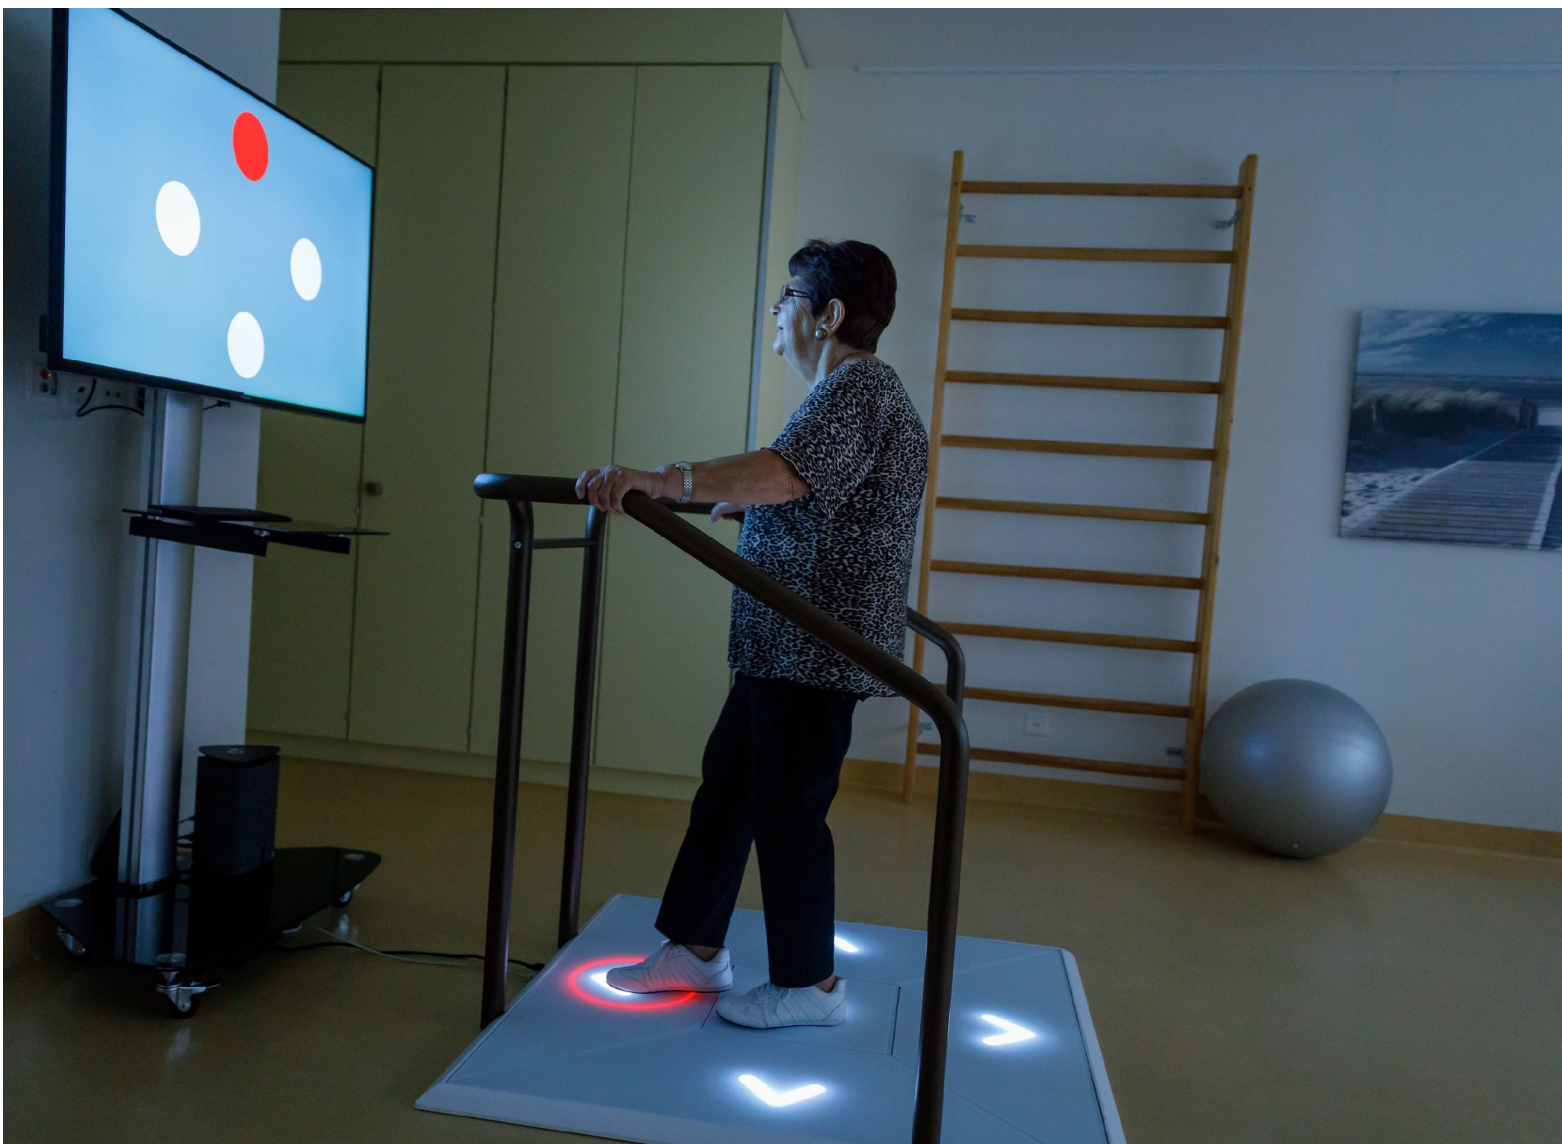

Motor-cognitive
training devices at
clinic or at home

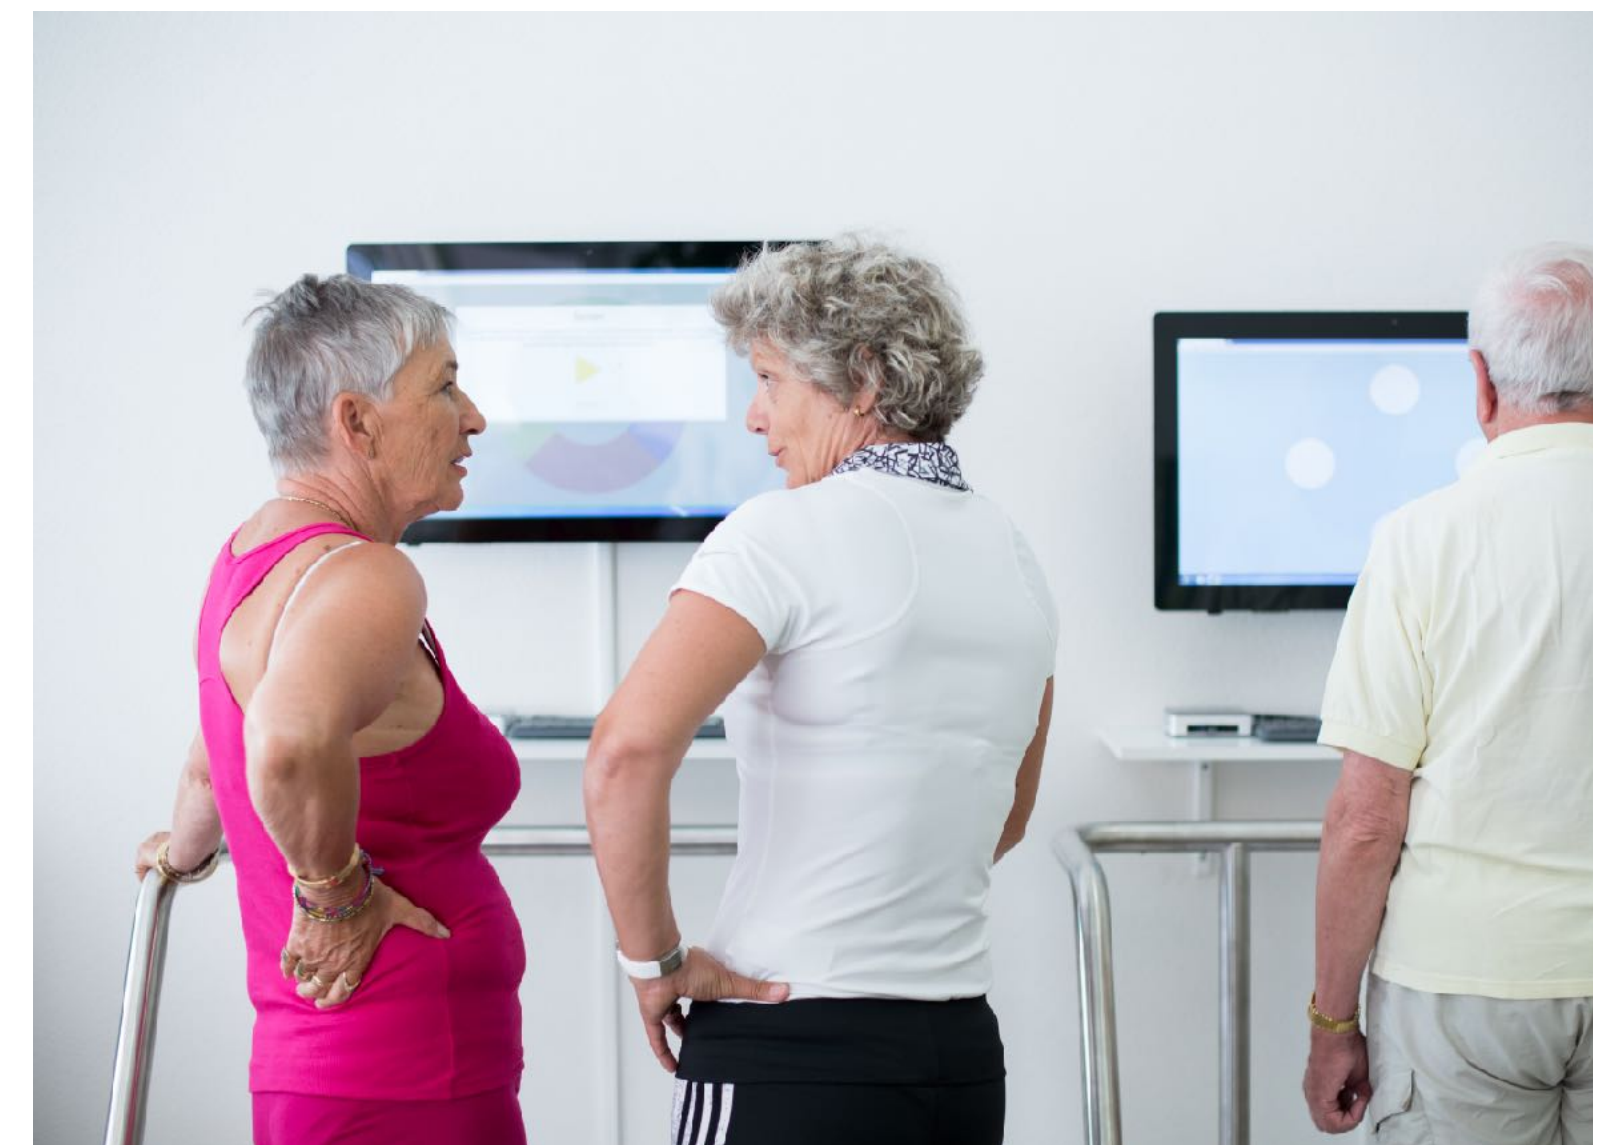

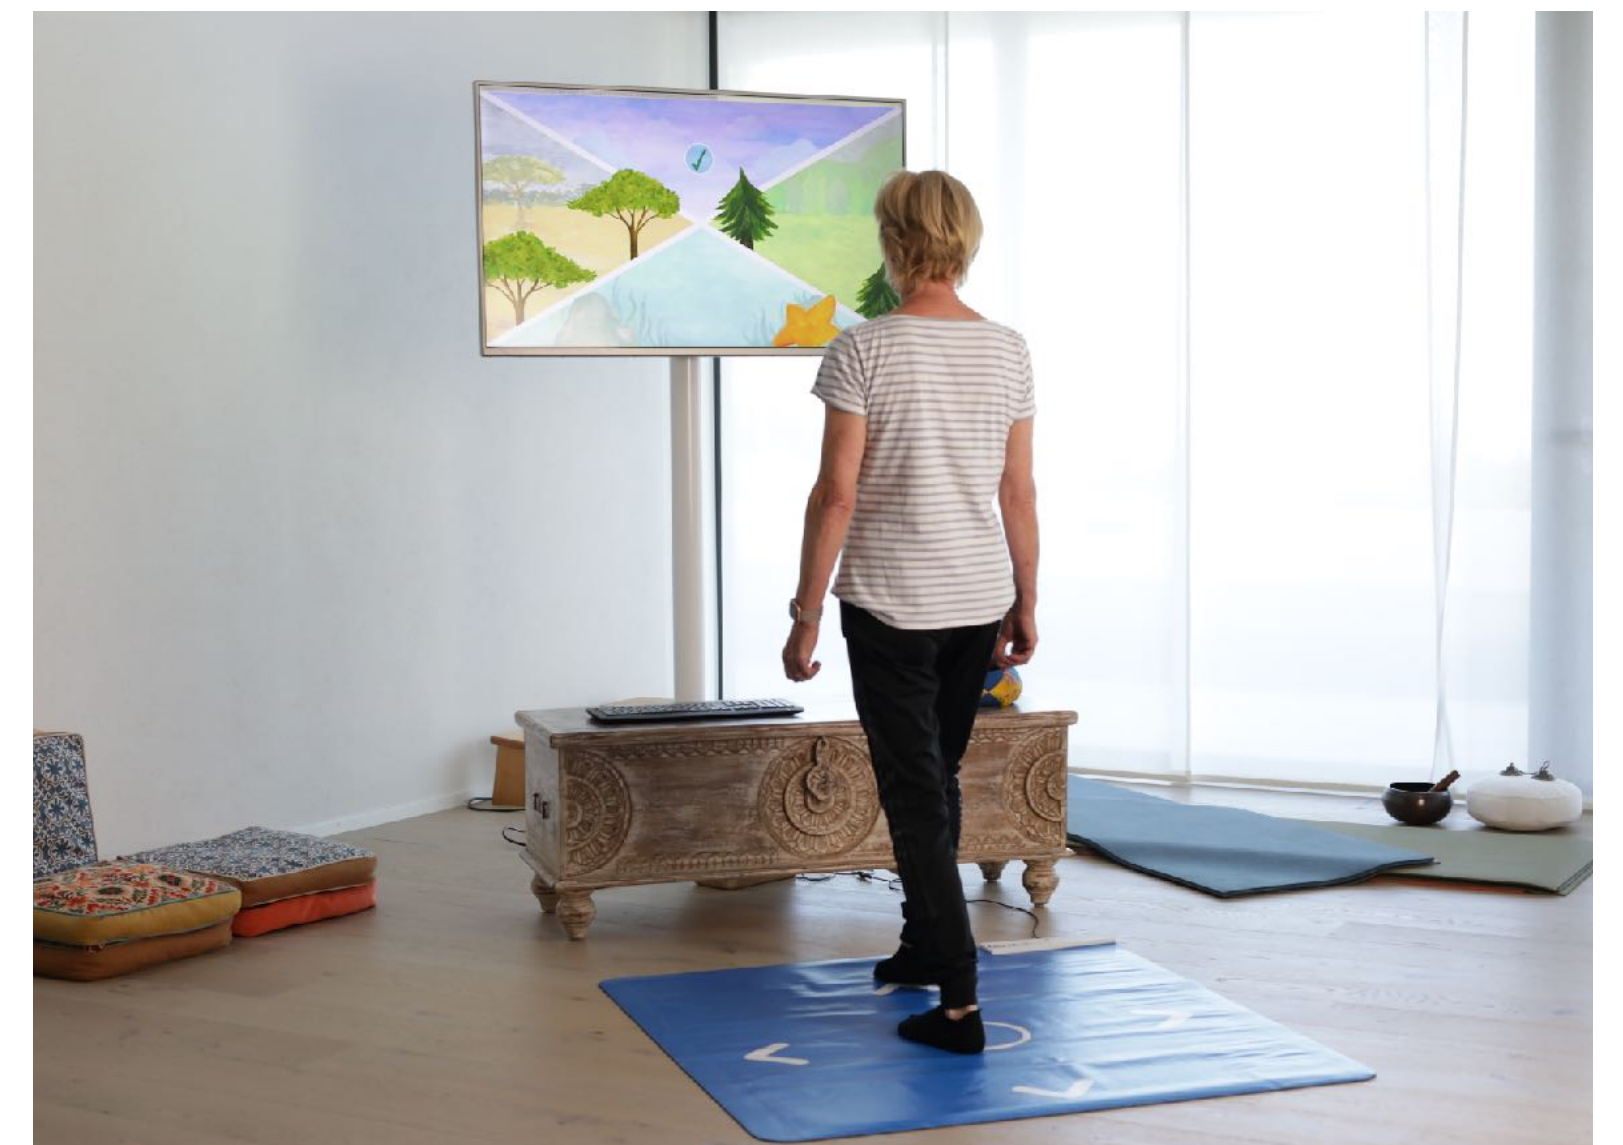

Project Goal

Develop an alternative rehabilitative pathway that is **equally effective, but more affordable and accessible** than conventional therapies

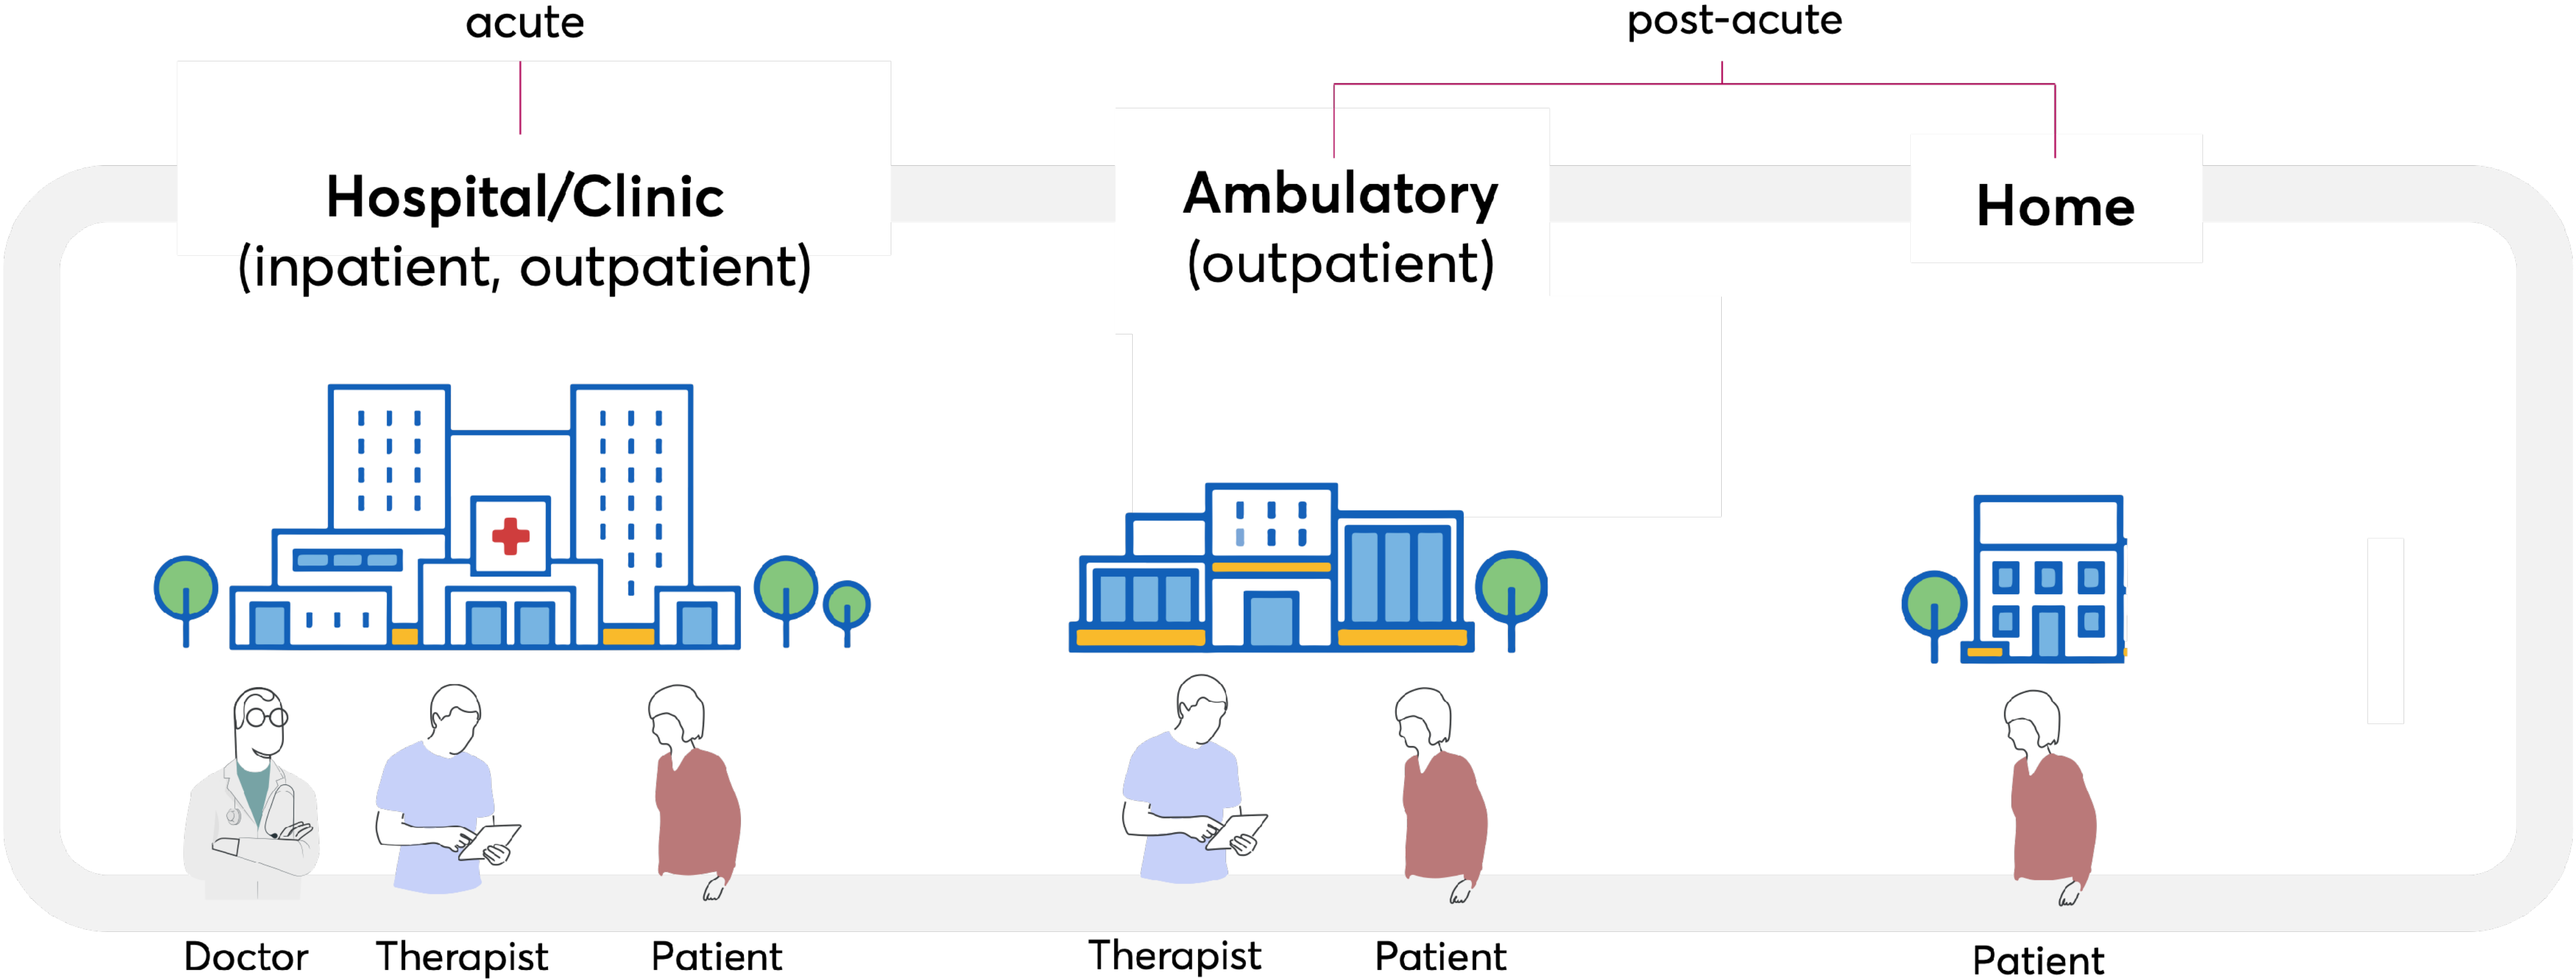

Target Market

Dividat.
